

Andrea understood that this was a hard decision for us to make, placing our mother in a facility for 24/7 care. As her daughters we were finding it harder and harder to keep up the needs of our Mom and that of our own families and responsibilities. Even as a nurse, the ability to allow me to be a daughter instead of the care giver was the best experience ever. You all took care of our Mom as your own. Even when she wanted her tea and snacks, or when she could not use her cell phone anymore. You assisted her in calling us, just to talk because she wanted to say hi.

The care and understanding you gave to Mom and all the ladies in the house reinforced that Sweet Home at Last is a place that will take care of our loved ones as their own. I truly believe that God showed us your website to guide us to the right place for her care.

Thank you so much,  
Diane
